MobME Wireless gets approval for R&D facility

Our Bureau
Kochi, Dec. 17:

Technopark-based MobME Wireless has got the approval and recognition from the Department of Science and Industrial Research (DSIR), Ministry of Science and Technology, for their in-house Research & Development facility.

MobME had set up an in-house R&D facility to continuously innovate and develop state-of-the-art products for the telecommunications industry.

MobME is the first telecom mobile value-added services company to have a full-fledged R&D facility certified by the Central Department of Government of India.

The company received this certification and recognition based on the scheme announced by DSIR, with the objective to promote in house R&D in India within private sector companies, a release said.
